### RE: Spring Timber Sales / Lockbox Ticket System

Iron County Timber Sale Bidders,

I would like to thank you for taking the time to review the 2017 Spring Timber Sale packet from the Iron County Forestry & Parks Dept. We have 16 timber sales available for bid this spring with all bids due by 8:30am, Thursday, June 1, 2017. Bids received will be publicly opened at 9am on June 1, 2017.

I would like to take this opportunity to review the Lockbox Ticket System that Iron County has utilized for many years on its scaled timber sales. The system has worked exceptionally well over the years allowing contractors to move their wood products without having to wait for the wood to be scaled by our Scaler. However, over the past year, and especially this past winter, we have had numerous instances of truck tickets not being filled out properly, not being left in the job ticket box, or not being left with the mill. These are all in violation of the Iron County Timber Sale Contract and will jeopardize the use of the Lockbox System.

I have attached a copy of the Contract sections pertaining to the Lockbox System and highlighted the pertinent areas for your review. A ticket **MUST** be filled out completely, the white copy left in the job ticket box, and a copy left with the mill for **EVERY LOAD** that leaves the job. No exceptions! I have also included a reference for you to share with the trucking Contractors on how to fill out the truck tickets properly.

In 2016 Iron County sold over 70,000 cords of wood. That equates to around 7000 truck tickets that our Scaler needs to handle and process. When copies aren't filled out correctly, are missing, or are not received timely this adds many hours of processing time for the Scaler. Instead of being in the woods getting your sawlogs and other needed scaling completed he is in the office trying to track down loads of wood. **Therefore, as sales activity begins this summer, we will begin assessing the administrative fees as described in Section 22(E) of the Timber Sale Contract, as highlighted in the attachment.** If the problems persist, individual contractors may be considered in breach of the contract.

The Lockbox System has worked very well for many years. With your cooperation on this issue, the Lockbox System will continue to be a viable system for our timber sales. If the assessment of administrative fees does not help correct the problem we will be forced to look at prepayment for timber sales or lump sum timber sale contracts. If you have any questions, please feel free to contact our office and we will be sure to help you. Again, thank you for considering the Iron County Spring Timber Sales. Good Luck!

Sincerely,

A handwritten signature in black ink, appearing to read "Eric J. Peterson", with a long horizontal flourish extending to the right.

Any slash falling within wetlands, lakes, or streams shall be immediately removed. Tops from felled trees may not be left hanging in standing trees.

## 22. LOCKBOX TICKET SYSTEM.

- A. Ticket books shall be issued by Seller when the Contract is signed and periodically thereafter as needed. Tickets are issued for the contract specified on the lockbox ticket, and shall not be used for any other contract. No slips of paper or facsimiles will be allowed to take the place of a lockbox ticket unless prior arrangements have been made with the Seller.
- B. The Seller shall place a lockbox in a convenient location on the Sale Area before any forest products may be removed.
- C. The Purchaser shall provide the Seller with a list of all destinations of forest products to be removed from the Sale Area, prior to hauling to said destinations. Purchaser shall report changes in forest product destination to the Seller before hauling to the new destination.
- D. A list of all truckers that will be hauling forest products from the Sale Area shall be provided to the Seller by the Purchaser. It shall be the responsibility of the Purchaser to provide such truckers with lockbox tickets. Each lockbox ticket is in triplicate. Each time a load of forest products leaves the Sale Area, the top copy of the lockbox ticket must be completely and clearly filled out and deposited IN THE LOCKBOX. When transporting forest products from the Sale Area, and when in possession of said forest products outside the Sale Area, the truck driver shall have in his/her possession the "mill" and "trucker" copies of the lockbox ticket applicable to the load. Upon arrival at the scaling location and completion of scaling of the forest products, the trucker shall detach the "mill" copy of the lockbox ticket and attach it to a duplicate copy of the scale slip. The Purchaser agrees to request the mill to return the "mill" copy of the lockbox ticket to the Seller unless other arrangements are made with the Seller. The Purchaser shall notify the Seller if the mill refuses to provide this service, and it shall be the Purchaser's obligation to return the "mill" copy of the lockbox ticket to the Seller with the "trucker" copy of the lockbox ticket. All "trucker" copies of lockbox tickets must be returned to the Seller with scale slips at the end of each week.
- E. If the mill scale slip and attached lockbox ticket are not received at the Seller's office within the following time frames, the appertaining administrative fees shall be paid by Purchaser, at Seller's sole discretion:
- i. Slips and tickets received 15-20 days after scale date: \$5.00.
  - ii. Slips and tickets received 21-30 days after scale date: \$10.00.
  - iii. Slips and tickets received more than 30 days after scale date: \$50.00 for every 30 days of delinquency.
- F. Failure to completely deposit tickets in the lockbox each time a load of cut forest products leaves the Sale Area shall be considered a breach of this Contract, and Timber Theft. Timber or other

forest products may not be removed from the Sale Area until paid for as provided in this Contract or other guarantees for payment have been made with and to the satisfaction of the Seller so as to authorize its cutting and removal. Upon removal of timber or other forest products in violation of this paragraph, the Purchaser agrees to pay as liquidated damages in the amount of double the mill value of the timber removed, and in addition to pursuing its remedies for breach of Contract, the Seller may seek charges against the Purchaser and his employees and agents for Timber Theft, Theft, Criminal Damage to Property, or a violation of an administrative rule or ordinance. At its option, Seller may cancel this Contract, forfeit Purchaser's bond, or take other appropriate action.

- G. Trucks may be stopped at any time to ascertain that a lockbox ticket has been properly deposited for a load.
- H. All lockbox tickets shall be accounted for by the Purchaser. The Purchaser shall return all unused tickets to the Seller immediately upon completion or termination of the Contract. There may be a \$10.00 charge for each lost or unreturned lockbox ticket.

### 23. ROADS AND LANDINGS.

- A. The Purchaser shall have the right to build such landings and temporary roads on Seller's land as may be necessary to log the Sale Area. The Seller reserves the right to specify locations of roads and landings. No landing or road shall be constructed or cleared and no existing road shall be used until the proposed construction and use has been disclosed to Seller and approved by Seller. In constructing any landing or road, Purchaser shall comply with Best Management Practices and all applicable state and federal laws and regulations.
- B. No landings may be built within 200 feet of a lake, stream, or public road, unless permission is granted by the Seller and any and all necessary approvals have been obtained.
- C. Logging roads that are to intersect any town, county or state roads or highways must have these intersections approved by the proper authorities prior to construction. Said intersections shall be kept free of unsightly debris.
- D. No skidding, landing, or piling of wood products will take place on County Forest roads, town roads, county roads, or on cleared portions of rights-of-way, unless permission has been obtained from the Seller and the appropriate town official.
- E. Purchaser shall keep existing roads and trails free from all logging debris. The Purchaser shall repair any damage to existing roads and restore them to a condition equal to, or better than, before the damage occurred.
- F. All private roads used to reach the Sale Area shall be maintained by Purchaser in a good, usable condition.
- G. All roads constructed by Purchaser shall be subject to the terms and conditions of this Agreement. Iron County shall have the right to use any road constructed by the Purchaser under this Contract
