Wolf Howl Timber Sale
Timber Sale # _____, Tract #23-20
T43N R01E S30. Town of Knight, Iron County

This map is not a survey of the actual boundary of any property this map depicts.

Harvest Specifications

Single Tree Selection: Cut all trees marked with orange paint, cut or crush all ironwood and musclewood, and cut all balsam fir and spruce with two 100" pulp sticks or more. Leave all standing dead snags and den trees when safe to do so. Do not cut any balsam or spruce with less than two sticks, any pine, white cedar, hemlock, or american elm.

Group Selection with Thinning: Follow the same specifications as the single tree selection stands. Group removal areas are roughly a chain wide and every stem within them is marked with orange paint. Cut or crush every stem within the gaps, including shrubs, and do not damage surrounding unmarked trees. Minimize damage to existing regeneration.

Utilize sawlogs to a 10" top diameter and pulpwood to a 4" top diameter. Sale boundaries are either marked with red paint, blue paint, a recent shelterwood harvest, or border Duck Lake Rd. Strictly follow all Wisconsin Best Management Practices for water quality. Ensure soil is adequately dry or frozen to avoid rutting and soil compaction. All slash shall be evenly dispersed throughout the sale area. No slash shall be left across sale boundaries or in wildlife openings. Leave unmerchantable logs where they're cut to remain as coarse woody debris (ex: large diameter, hollow or rotten logs with no value). All woods roads that are used for this sale will be back bladed upon sale completion. No harvesting between April 1 and July 1!
